### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

***In the Specification:***

Page 1, lines 1, 2 and 3, delete "Patent Application of Reginald W. Reymus".

Page 3, line 17, change "facia board" to read, "facia boards".

Page 6, line 18, change "loosing and tightening" to read "loosening and tightening".

Page 6, line 22, change "17, 18" to read "17 and 18".

2. The following is an examiner's statement of reasons for allowance: The art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a hanger bucket member having a U-shaped channel sufficiently dimensioned to receive and support a facia board; a rafter clamp member having a U-shaped channel sufficiently dimensioned to receive and be fastened to a rafter by the clamping member; a swivel bracket member having a first member and a second member, the first and second members connected to each other edgewise in a substantially perpendicular relationship, wherein the first member is connected to the hanger bucket member and the second member is connected to the rafter clamp member, thereby placing the facia board in a substantially perpendicular relationship with the rafter, wherein the second member of the swivel bracket member has a swivel means for

adjusting the hanger bucket member to align with the angle of the rafter edge, together in combination with the rest of the limitations set forth in the dependent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
